

CIUBOTARIU ALBERT ANDREI

WEB DESIGNER
PHP & MYSQL PROGRAMMER
LINUX SYSTEM ADMINISTRATOR

ABOUT ME

I have been working in the field of web design since early 2018. I was initially drawn to this field out of fascination for websites and how they operate, and I have been passionate about it ever since.

I possess certifications in cPanel Professional and Alison Web Design, which have enriched my understanding and proficiency in various aspects of web development. With expertise in WordPress, HTML & CSS, PHP & MySQL, as well as Linux, I am well-versed in a range of tools and technologies essential for effective web design.

Over the years, I have gained valuable experience in creating visually appealing and user-friendly websites. I take pride in translating clients' visions into captivating online experiences, paying meticulous attention to detail to ensure seamless functionality and aesthetic appeal.

Staying abreast of the latest industry trends and best practices, I continuously strive to deliver cutting-edge designs that adhere to modern web standards. I thrive in collaborative environments, working closely with clients, designers, and developers to achieve exceptional outcomes.

What truly drives me is the ability to craft immersive web experiences that leave a lasting impact on users. With my technical acumen, creative mindset, and unwavering commitment to excellence, I am excited to contribute my expertise to your team or project.
